

SMART NIGHT

acdecal

Basta con le pesanti camere da letto "della nonna", in noce scuro, eterne sì ma un po' cupe! Giovani e adulti del nuovo millennio prediligono da un po' di tempo soluzioni fresche ed "easy" con colori accesi. Molto amati sono anche i contrasti forti e le linee essenziali e geometriche, funzionali e pratiche, specchio delle giornate impegnate e veloci delle generazioni d'oggi.

La camera da letto diventa quindi zona di confort, nicchia per i propri tesori personali -ben conservati nei mobili contenitori-, infine luogo in cui scegliere e organizzare un armadio funzionale alle esigenze della vita lavorativa e familiare.

Deca propone una serie di soluzioni per la zona notte che rispondono ai requisiti di freschezza e attualità, offrendo ai Clienti più esigenti una gamma di proposte divertenti e di impatto.

I mobili di gamma possono presentare elementi laccati lucidi e opachi ed essere scelti in colori diversi: Bianco, Nero, Grigio Merinos, Viola, Marrone, Antracite, Cipria, Rosso, Arancio, Cappuccino, Verde e Sabbia per una iniezione di vitalità e gioia di vivere.

La Ditta Deca propone i suoi prodotti completamente laccati sui frontali e sulla struttura, essi sono in kit, corredati da chiare e semplici istruzioni.

Tutti i mobili della linea Smart Night adottano accessori di elevata qualità, in particolare i cassetti sono equipaggiati con guide a venti la tecnologia SlowMotion per chiusure ammortizzate e silenziose.

Le ante hanno le cerniere con il sistema di connessione cerniera-basetta a baionetta che permette montaggi e regolazioni rapidi e affidabili dotata di ammortizzatore regolabile per chiusura Soft Clousing. Piedini livellatori regolabili e maniglie in metallo.

Tutti i componenti e le lavorazioni sono esclusivamente **MADE IN ITALY** per garantire un grado di qualità e design che ci contraddistingue.

Enough with those heavy "granny" bedrooms, made in dark walnut, which can be everlasting but gloomy! Teens and adults of the new millennium strongly prefer fresh and "easy" solutions with high colors. Much loved are the high contrasts and the essential and geometrical lines, too, which are functional and practical, reflecting the busy and fast daily lives of today's generations.

The bedroom is now a comfort area, a recess where you can hide your own treasures – well preserved in the storage furniture – and finally a place where you can choose and organize a functional closet fitting any work and family needs.

Deca proposes a series of solutions for the night area, satisfying the requirements of freshness and modernity, offering the most demanding Customers a wide range of amusing and effect proposals.

The pieces of furniture of our range can have varnished, shiny or opaque, elements offered in a large choice of colours: White, Black, Mink, Violet, Brown, Anthracite, Dusty pink, Red, Orange, Cappuccino, Green and Sand for an injection of vitality and joy of life.

Deca introduces its products completely varnished on the front part and on the structure, produced in kit and provided with clear and simple instructions.

All pieces of furniture of the line Smart Night come with high quality accessories, in particular the drawers are equipped with guides provided with SlowMotion technology for damped and no-noise locking. The doors have hinges with the hinge-junction connecting system enabling quick and reliable mountings and adjustments, and provided with adjustable dampers for Soft Closing. Adjustable leveling feet and metal handles.

*All components and productions are exclusively **MADE IN ITALY** to guarantee a high quality level and design that is our distinctive characteristic.*
